What the New York Afternoon Papers

What the New York Afternoon Papers
Say About Yesterday's Trading.

(Special to The Times-Dispatch.)

NEW YORK, April 15.—The Evening
Post says: The only noteworthy changes
in prices on to-day's Stock Exchange occurred in the last half hour of business.
What happened then was a sharp decline in the local street railway shares,
as a consequence of the elevated company's ultimatum. The directors refused
reint blank the further demand for a
sharter working day. The Stock Exchange's nervousness doubtless arose
reen the fact that the employes had
comiled their request with a threat of
tyrke. The threat is probably empty, and
I ere is little ground for supposing that
the syrface line would, in any case be affected. The last half-hour of business is,
however, an awkward time for disturbing
developments on the Stock Exchange.
Manhattan L shares declined 2 points,
the other street railway shares a point
or more. The general market declined
along with them, but as its earlier movement had been upward it did no more
than lose its foremon gains.

Money was slightly easier; foreign exchange unaitered.

The Evening Sun says: There was a

The Evening Sun says: There was a further contraction in the volume of business in to-day's market, but on the whole a fairly steady tone prevailed. The dealings, technically considered, showed a number of conflicting tendencies. Soon after the opening there was evident, although on a small scale, a renowal of U-quidation by commission houses, which apparently reflected the closing out of weakened marginal accounts. There was then evident also, as was the case on occasions during the day, quite heavy profit-taking sales by the courageous buyers during Monday's stump. On the other hand, the covering of shorts was clearly evident, and the great publicity given to Monday's crash in prices had the usual effect of bringings into to the market further buying of an investment character. It was the fairly common report of commission houses that during the past few days there have been heavy takings of odd lots of securities, and purchases of this character, as a rule, represents permanent investment.

There was little or another. At the opening of business there was evident no little disappointment that yesterday afternoon's rumors respecting the status of the Northern Securities' stock in the curb market had no little to do with the Irregularity apparent in the Stock Exchange market. No further authoritative information with respect to the solution of the Northern Securities' problem was available to-day. It was, however, the common, and certainly not unreasonable, opinion that, notwithstanding the denials made with regard to yesterday afternoon faxed to the common and certainly not unreasonable, opinion that, notwithstanding the denials made with regard to yesterday afternoon faxed the properties. Whether the public will be apprised of the scope and details of The Evening Sun says: There was a further contraction in the volume of bus-

such a scheme, pending the appeal of the Northern Securities' case in the United States Supreme Court, may be doubted.

Northern Securities case in the United States Supreme Court, may be doubted.

The Commercial-Advertiser says: Prices recovered still further in to-day's early market, but the movement hardly represented anything more than additional realizing of profits by recent sellers for the decline.

Son after mid-day these covering purchases seemed to have been supplied, and the market begin to move back again. The professional view of the immediate movement was that the market having been over-sold" a sharp rebound of severa pints was in order; that this rise having occurred speculators who had bought as a lower level would sell out and that a material reaction would then occur. Apparently this process is actually what to-day's trading witnessed. Prices came higher from London, and the advance continued cautiously during the carily hours until gains of a point or more had been established over last night's closing level. Then the market halted, and in the atternoon began to ease off gradually again.

The printing outside news was favorable. The banks reported a large cash gain from the last back self hour when news ar.

The market held comparatively strong.

scarcely had much inducted trading.

The market held comparatively strong until the last half hour, when news arrived that the demands for higher wages by the Manhattan amployes had heen refused by the company. On this announcement Manhattan shares broke rapidly, and the rest of the list sympathized, with sharp declines in many of the leading issues.

The close in the general market was unsettled.

WALL STREET GOSSIP

B. & O. Shows Good Earnings-Louisville and Nashville Was Heavy,

ville and Nashville Was Heavy,

(Special to The Times-Dispatch.)

NEW YORK, April 15.—The opening of
the stock market was dull and a little
lower, in spite of a higher range of prices
from London. It aecmed rather vident
that stock bought to support the market
on the Monday decline was coming out,
and there was not much buying for foreight or commission house account. Too
professional sentiment was mixed, and
any disposition to hay stocks was medihed by the possibility that there might
be a little further liquidation.

NORTHERN SECURIFIES:
The knowledge that sixty days was available to decide upon the course in the Northern Securities matter had a rather tranquilizing effect. The stories of the abandonment of the appeal and the adoption of a new method of operations were quite discredited.

AMALGAMATED COPPER:
A. C. P. showed fair strength in sympathy with the hardening fone of the matal in London and the advance in copper stocks there.

enough to take a fair amount of stock without losing ground. Trading showed a tendency to become narrower and some-what specialized, and from the absence of the larger interests it looked as if a period of dullness would be encouraged.

LEATHER BULL CLIQUE:
There seemed to be a vigorous bull clique in Leather with Harris, Gatea & Co. rather conspicuous among the buyers. There were plenty of stories, but none of them particularly well founded.

MISSOURI PACIFIC:
Missouri Pacific was harder on moderate speculation of an unimportant character. The absence of the Gould brokers in this and other stocks of the same group was a matter of comment in the room.

STEEL HELD WELL:
United States Steel held well, and competent judges think that very little of the public holdings came to the market in the recent break.

AFTERNOON TRADING:
The market was inactive in the early afternoon and somewhat disposed to lose the early advances. The professionals bought a little stock early, but found no following and were disposed to let it go. There was no stock pressing, but any development of strength seemed to find a fair supply.

WESTERN CROWD:
The Western crowd was either covering shorts or taking the long skip in the early trading, but suspended its operations later and seemed content to wait. The brokers usually acting for that interest said that they were getting stock a little too easily.

LOUISVILLE & NASHVILLE:
Louisville was rather heavy and gave the idea that the Western crowd was out of it. People in touch with the Atlantic Coast Line control did not encourage the reports of an advance in the dividend, and said that the matter had probably not even been considered.

THE CLOSE:
The close was heavy and lower, and was influenced to a considerable extent by labor news. Traders who had been unable to stimulate an advanced turned round and offered stocks rather freely in the last few minutes and managed to shake out a little stock. The floor traders generally reported that attempts to bid under the day had always met with a fair supply of long stock.

COTTON MARKETS.

NEW YORK, April 15.—The cotton market opened firm at an advance of 327 points under a somewhat better average of cable news than expected, and following the call displayed still further strength under renewed covering by old crop shorts, with May and July once more the choice of the object of attention. The former option closing last night at 10.37, opened this morning at 10.42 and then sold up at 10.50, while July closing yesterday at 9.99. first sold at 10.65 and then advanced to 10.08. There was apparently little in the early news to explain the firm less.

vanced to 10.03. There was apparently, ite in the early news to explain the firmness.

Weather news was fairly favorable, and the port receipts of the day were slightly under those of last year, 10.305 bales, against 12.545 bales. The interior movement was regarded as bearish, and the estimates for the week's insight showed an expanding tendency, 105.009 bales being popularly expected against an actual of \$2.005 bales last year. Rumors were also circulated that some of the May and July shorts had made private settlements with the built pool, and this was thought in some quarters to mean that the clique leaders were not disposed to attempt an actual corner. This view was perhaps oncouraged by the liquidation which grow apparent at the higher levels, leading to considerable room selling, and the highest price in May was forced down 10 points, while July reached 3.96. Later, however, the pool bought again, and toward the close the market was advanced to about the best of the day under a fresh scare of the shorts, with the market finally net 10013 points higher and the total sales of futures esimated at 125,000 bales.

Cotton futures opened firm and closed

MISCELLANEOUS MARKETS.

MISCELLANEOUS MARKETS.

HIDES AND TALLOW MARKET.
CHICAGO, ILL., April 15-(Allen-Miles & Co.'s Hide and Loadher Letter)—The sales of fifty to sixty thousand packer light native cows reported yesterday are miking the marekt stronger, especially on light hides and branded cows. Twelve hundred March and April heavy Texas sold at thitteen. One thousand March and April light Texas sold at, eleven half. Twelve hundred January-February native steers hold at elven half; three thousand April light Texas sold at, eleven half. Twelve hundred January-February native steers hold at elven half; three thousand April light Texas sold at, eleven half. One packer offers February heavy, light intive cows at nine half, and December-October branded cows are offered at nine quarter. April native steers offered at eleven and a half, but the brands ten three-duarters Colorado ten half. Country market stronger on heavy cows, which sold to-day at eight half and seven half. Two cars buffs offered to-day at elght half. Two cars buffs offered to-day at these prices except where hides run large percentage number one or eight half and seven half Ohio points. The large sales packer light cows have strengthened country market and stimulated buying: light stuff unchanged. Tallow dull and steady.

PEANUT AND FEA MARKET.

PEANUT AND PEA MARKET.

PEANUT AND PEA MARKET.

NORFOLK, VA., April 15.—The peanut market is quiet to-day. The only change in prices is Spanish nuts, which have dropped in price to 71½c a bushel. The prices are as follows:

Fancy, quiet at 3c; strictly prime, 2½c; pd., peachine picked, 2½d½c; Spanish, 71½c, perbushel. Blackeye peas, \$2.35 and speckle peas, \$1; clay and red peas, \$6c. Peanut bngs in bales-68 in., 74-9c.

PETERSBURG, VA., April 15.—PEANUTS—Spanish new, market very firm at 71½c; sellers asking more. Virginia's—Quiet at 3c.

DRY GOODS MARKET.

NEW YORK, April 15.—The weather has been the depressing factor in all sections of the dry goods market and buyers have again been present in very small numbers. Climatic conditions in the West have not been conducive to active buying, while stocks are not sufficiently reduced to warrant the placing of additional orders. NAVAL STORES.

M'ILWAINE FOR SENATE

Sald That Gontleman Will Oppose Martin.

REPUBLICAN DELEGATION

Will Be for Some Other Candidate Than Mr. Theodore Roosevelt. Jones-Truett Marriage.

The Times-Dispatch Bureau,
No. 1417 G Street, N. W.,
Washington, D. C., April 16.

I was very much surprised to-day to
hear one of the best informed men in
public life in Virginia say at the Metropolitin Hotel that Hon. W. B. McIlwaine,
of Poterburg, would be a candidate for
the United States Senate in 1905.

"There is not the slightest doubt about
it," said the gentleman alluded to, who
forbade in the most positive terms the
use of his name, "Mr. McIlwaine will
almost certainly be a candidate. Of
course, he may change his mind during
the coming twelve months."

Now, be it remembered that I do not
assert Mr. McIlwaine will try to come
to the Senate, nor do I even say he would
like to come. I know he told me some
years ago he did not want any other,
office than the one he held—a member of
the Virginia Senato—and that he liked
that position because he liked association
with the men who composed the upper
house of the Virginia General Assembly.
I suppose there has not been a time in
years when Mr. McIlwaine could not
have been elected to Congress from the
Fourth Virginia District. There is not
an abler lawyer in the State Senate, and
few stronger men at the Virginia bar.
The fact that he has not a wide acquaintance throughout the State Senate, and
few stronger men at the Virginia bar.
The fact that he has not a wide acquaintance throughout the State would be
against him.

The mention of Mr. McIlwaine's name
in connection with the Senate is the first
time there has been a hint of a friend of
Senator Martin's entering the field. Mr.
McIlwaine nominated Mr. Martin for the
Senate when he was elected for the present term, and I think he also presented
the name of Mr. Martin in the Democratic caucus. Only his own words will
cause those who know him best to believe he will be a candidate against Mr.
Martin next year.

A COOLNESS.

Ex-Postmaster Burruss, of Portsmouth,
is of the opinion that Mr. Roosevelt
as once it was. It is known that State
Commitce is so friendly to Mr. Roosevelt
as once it was. It is know

White House in months, and Mr. Bowden, who used to be a frequent caller, has been for some time most conspicuously absent.

UNLUCKY REMARK.

A recent remark attributed to General Frank D. Baldwin, commander of the Department of the Colorado, concerning hegro and Filipino troops, will be made the subject of an investigation by the War Department. General Baldwin is alleged to have said in Denver recently that one reason why he liked the negro and Filipino soldiers was that in a fight that one reason why he liked the negro and Filipino soldiers was that in a fight or not. As may be supposed of this administration, such a remark has caused a flurry, and Secretary Root has addressed a formal letter to General Baldwin, inquiring whether he made the statement attributed him. A reply has not been received, it may be stated that while General Baldwin will reach the retiring age July 28, 1906, there is a like-lihood that he will be retired much earlier. The administration will not tolerate any reflections upon the black man. He must have all he is entitled to, and just as much more as may be found for him on the lee side of the "Door of Hope." It was a brutal remark for a commanding officer to make.

Governmental expenditures were considerably in excess of receipts, yesterday. The income from internal revenue, customs and other sources was \$155,020, while the expenditures amounted to \$1,380,000, a difference of \$430,974 on the wrong side of the ledger.

TOBACCO FIGURES.

Colonel John S. Cuningham, of North Carolina, who is here to-day has been in Richmond endeavyring to secure the introduction of a bill to provide that the farmer shall give to the commissioner of revenue every year the exact amount of tobacco raleed on his farm. Colonel Cuningham says he is confident that neither Virginia nor North Carolina raises as much tobacco as people holieve from reading the published figures.

Mr. George Joter Jones, of Richmond, and Miss Emma W. Truett, of this city, were married here to-day by Rev. George E. Truett.

Mr. Church

E. Truett.
Mr. Charles Douglass, of Richmond, and

(Rr Associated Press.)

WASHINGTON, D. C., April 15.—Rear.
Admiral Melville, chief of the Bureau of
Steem Engineering, has under consideration a report received from the chief
engineer of the Maine regarding the consdition of her boilers, of which ninety
tubes are said to be bent and several
burst.

Secretary Moody has decided that the
battleship shall go to the Cramp shipyards for repairs. The question as to
whether the government shall stand the
axpense of these repairs is yet to be determined.

River Continues to Fall.

River Continues to Fall,

(By Associated Press.)

NEW ORLEANS, April 15.—The river continues to fall here, registering 19.7 feet. If the present rate of decline continues for a week, all the temporary leves along the commercial front will expect the commercial front will sappear. The work at Hymelia to-day went along successfully except for a deep hole, which some difficulty will be found in closing.

A CLEAR BITAIN and healthy body, are essential for success. Business men, teachers, students, housewives, and other workers say Hood's Sarsaparilla gives them appetite and strength, and makes their work seem easy. It overcomes that fired feeling.
